PROFILE

I am dedicated front-end engineer with over three years of experience in building user-focused web applications using HTML, CSS, JavaScript, and ReactJS. Expertise in optimizing web performance and enhancing usability, demonstrated through successful projects like an AI-driven food ordering platform. Skilled in collaborating with cross-functional teams to deliver high-quality code and innovative solutions.

EDUCATION

Moshood Abiola Polytechnic

Higher National Diploma (HND) in Computer Science

October 2014 – October 2020

WORK EXPERIENCE

Kodecamp

React Intermediate | 2024

- Completed a comprehensive React Intermediate course, enhancing my skills in building scalable and efficient web applications using ReactJS.
- Gained hands-on experience in state management using Redux and learned best practices for React development, including component lifecycle methods and hooks.
- Utilized third-party APIs to fetch and display real-time data
- Enhanced user interaction through dynamic updates and personalized experiences
- Resulted in a measurable increase in user engagement and satisfaction

Tony Elumelu Foundation

Front-end Engineer Intern | 2017 – 2018

- Assisted in developing and maintaining front-end web applications, enhancing overall company performance.

- Improved code quality metrics, achieving zero critical bugs during three consecutive deployment cycles while conducting peer reviews that elevated developer accountability within the team structure.
- Elevated application performance through rigorous debugging processes that identified critical issues, leading to an increase of over 20% in user satisfaction scores based on feedback collected from beta testing..
- Implemented strategies that increased website performance by 15%.

HDINTERIEUR

Frontend Developer | 2021 – 2022

- Developed and optimized responsive and accessible web interfaces using HTML, CSS, and JavaScript.
 - Designed and implemented user-friendly web components, significantly improving user experience.
 - Collaborated with back-end developers to integrate front-end features into larger applications.
 - Delivered solutions that enhanced project outcomes and supported overall application usability.
-

CERTIFICATIONS

- **Scrum Fundamentals**, VEdu.inc – June 2023
 - **Agile Fundamentals**, VEdu.inc – June 2023
 - **Six Sigma Yellow Belt**, VEdu.inc – June 2023
 - **Introduction to DevOps**, IBM Skill Network (Coursera) – June 2023
 - **Introduction to Cloud**, IBM Skill Network (Coursera) – July 2023
 - **Front-end Development**, Udemy – August 2023
 - **React Intermediate Development**, KodeCamp–September 2024
-

SKILLS

Technical Skills:

- HTML, CSS, JavaScript, TypeScript
- ReactJS, Redux
- Git, SVN
- Unit Testing
- UI/UX Design
- SEO & Web Security Best Practices
- Troubleshooting & Debugging

Soft Skills:

- Project Management
 - Technical Writing
 - Cross-team Collaboration
 - Agile & Scrum Processes
 - Technical Presentations
-

LANGUAGES

- **English** (Professional)
 - **Yoruba** (Native)
-

KEY ACHIEVEMENTS

- **Performance Optimization:** Increased website performance by 15% through front-end optimization strategies.
- **OMINI FOOD AI:** Developed an AI-based food ordering platform that customizes meal plans for users based on dietary preferences. The platform partners with restaurants for meal delivery in select cities.
- Designed and implemented user-centric course content for **X-Project**; improved engagement metrics by achieving an average completion rate of 75% across all offerings within initial launch period.
- Managed the rollout of scalable learning modules for X-Project which allowed seamless access to resources for users at different skill levels; contributed directly to onboarding processes impacting over 1,200 new students monthly.
- **Personal Portfolio Development:** Single-handedly built a personal portfolio showcasing my projects and skills, demonstrating my capabilities in front-end development and enhancing my online presence.
- **Project Efficiency:** Leveraged proficiency in ReactJS, Next.js, and Tailwind CSS to accelerate project development, enabling faster implementation of features and a more streamlined design process.
